# GAME RULES

## Base Game

Tempered Steel is a 5x3 slot machine with 20 lines. It is set inside a blacksmiths forge with lots of interesting machinery in the environment that really set the mood of the game. It is a darker than usual slot game that perfectly sets the tone for the high volatility game play.

The base has a 24.4% hit rate and pays left to right 3, 4 and 5 of a kind matching symbols.

All modifiers and bonuses are designed to deliver using equipment found inside a forge.

# GAME RULES

## Base Reel Modifier Delivery

To the left of the screen is a iron chain that is used to trigger the reel modifier sequence. It has a random chance of starting at the beginning of every game cycle. When triggered it will lower into the bucket to produce steam and reveal the bonus modifier. Up to 3 modifiers can be delivered using this mechanism.

After a modifier is delivered the metal chain will reset to a cool state and slowly become hotter again the more spins the player has had since their last modifier. This is a visual indication so the player knows when to expect the next modifier.
