THE FIRST-EVER DICE FOOTBALL GAME

Football Studio Dice is a unique and entertaining football-themed game show for players who get a kick out of football and want fast and simple gameplay. Similar to our unique Bac Bo dice game, Football Studio Dice adds the emotions and atmosphere of a live football match, where you can cheer for the HOME or AWAY side and also engage with our game hosts and throw yourself into the football conversation.

HOME and AWAY scores are made up of the sum of two dice, automatically shaken in four individual shakers, two for each side.

The highest two-dice total wins. But, just like a real football match, it's a game of two halves. Even if a player loses the 'First Half' dice shake, there's always the chance to come from behind in the 'Second Half' dice shake.

Broadcast live from our hi-tech football-themed studio, the game will capture the imagination of football fans all over the world. Whether you back the HOME or AWAY side, or bet on the big-payout potential of a DRAW, Football Studio Dice offers a unique world of constant, end-to-end excitement.

KEY BENEFITS

- Unique dice game with a football theme
- Simple rules and fast gameplay
- Tie bet payouts of up to 80x.

RETURN TO PLAYER (OPTIMAL)

97.75%

HOW TO PLAY

Football Studio Dice is easy to understand, fast-paced and endlessly engaging.

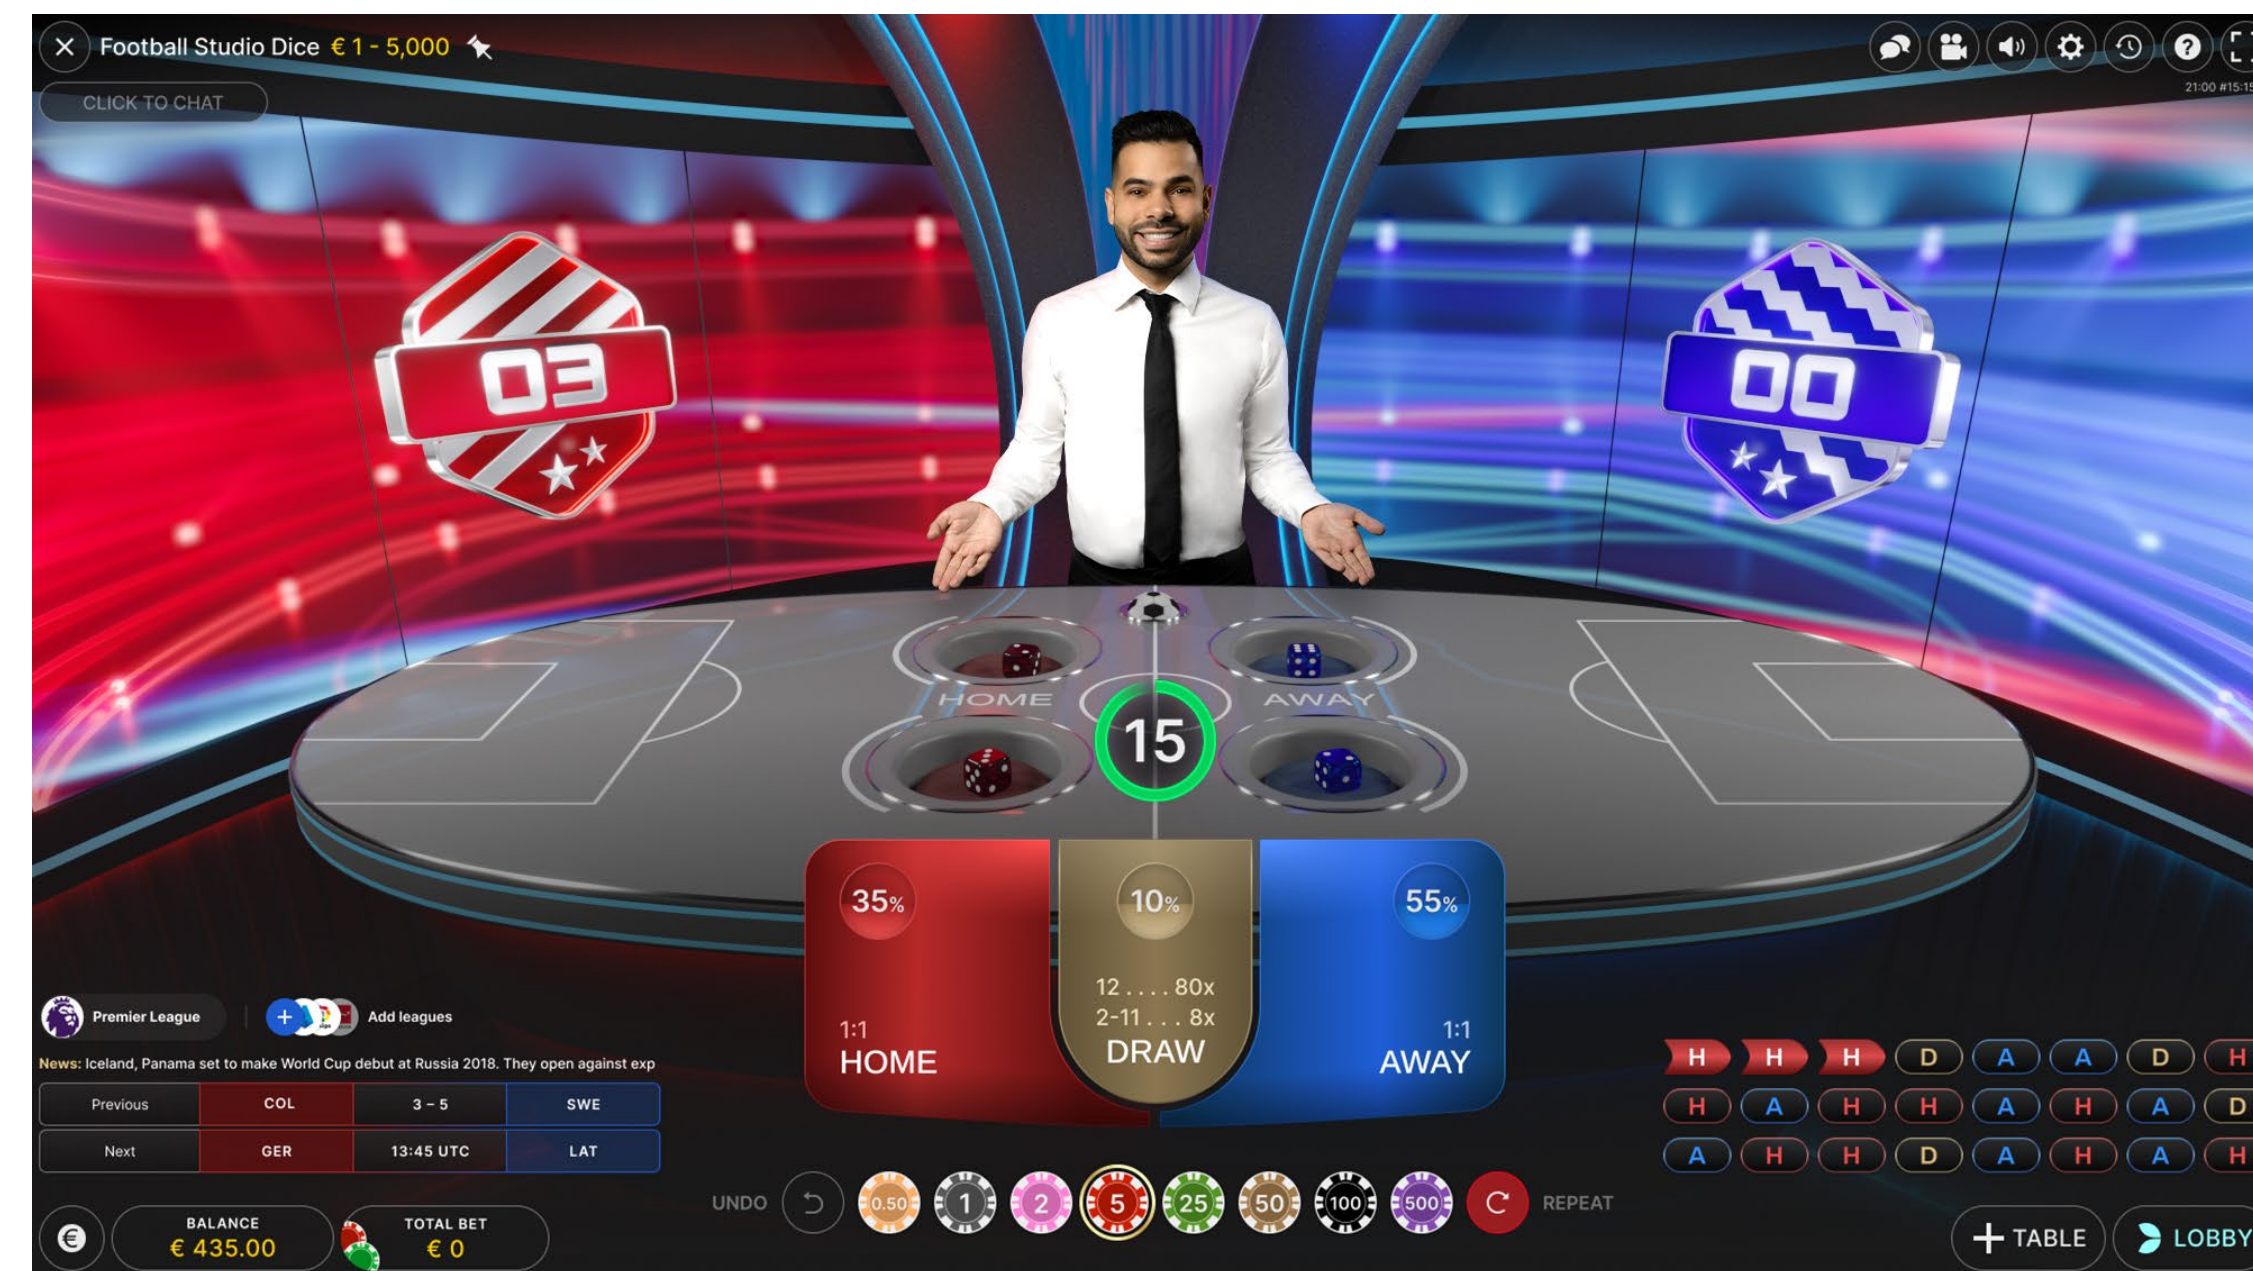

The game is played with four dice: two for HOME and two for AWAY. Each dice is placed in an individual automatic shaker recessed into the surface of the gaming table. The top two shakers are the 'First Half', and the bottom two shakers are the 'Second Half'.

During the betting time, all dice start to shake at once. The dice come to a stop at different times making the game more exciting and increasing player engagement. When the last two dice have come to rest, the winning side is declared.

PLACE A BET

The objective of the game is to predict which side will win by having the highest two-dice total. You can bet on HOME, AWAY or/and DRAW.

The user interface lets you see the payouts for different results of the DRAW (Tie) bet with its potential payout of up to 80x.

THE DICE SHAKE

The game is split into two halves: 'First Half' and 'Second Half' to represent the two halves of a live football match.

During betting time, all four dice will start to shake at once. Then they come to rest in the following order:

The upper HOME and AWAY dice ('First Half') will stop first.

Then the lower HOME and AWAY dice ('Second Half') will stop a few seconds later.

THE RESULT

When all four dice have come to rest, the final result is displayed on the screen. The highest two-dice total wins, resulting in either a HOME or AWAY win.

If the result is a DRAW (Tie), there are several different payouts depending on the tied dice result. For example, if the HOME and AWAY dice rolls both total 12 (that is, a 12-12 draw), the payout on the DRAW bet is 80x. Other DRAW totals (from a 2-2 draw through to an 11-11 draw) pay 8x.
