MULTIPLIED STRAIGHT-UP BETS

Place any Straight up bet to be eligible for a Multifire Number multiplier.

At the start of each spin, between one and three randomly selected straight-up numbers are chosen, referred to as Multifire Numbers.

The Multifire Numbers are revealed, each with a randomly selected multiplier from x50 up to x500 which enhances the payout of those numbers.

EXTREME TUMBLER

Once the Multifire numbers have been revealed, an Extreme Tumbler spins, further boosting the Multifire Numbers by x2, x3, x4 or x5 their value.

All Multifire Numbers receive the same multiplier boost.

Multiplied Straight up number wins can pay out up to a maximum of 2499:1
