

PopOK Gaming Jackpot is a powerful tool that promises to deliver positive marketing to your casino, attract new players and engage wider audiences to ultimately build a trustworthy relationship with them.

-  Players have a chance to win one of the four-level jackpots by flipping the cards one after another until the same 4 cards are achieved.
-  There is no minimum bet required to qualify for jackpots.
-  The operator decides on the amount of the initial seed, a value at which the jackpot will start.
-  The contribution to the jackpot can be suggested by the operator (default 1% from each bet).

-  Every level of jackpot receives 25% of contributions by default (can be changed if requested).
-  When the progressive jackpot is won, the jackpot resets.
-  The progressive jackpot works on all PopOK Gaming slot games.
-  Jackpot wins are subject to verification by the casino and the software supplier.
