FIRST PERSON AMERICAN ROULETTE

First Person American Roulette is a great Random Number Generator (RNG) Roulette in American style. This double-zero variant adds extra excitement with not only the 1-36 and zero (0) but also an additional double-zero (00) on the wheel and table layout.

Watching the ball spin in this beautiful wheel with realistically animated ball spins, it's easy to forget that this is not a live game. Our First Person American Roulette is a superior version of classic double-zero American Roulette, offering all the usual American Roulette bets. With a true to life chip stack that matches the player's available balance at the player's fingertips, it's easy to immerse yourself in the game. Superior 3D rendering and beautiful animation deliver an immersive gaming experience that makes our First Person games the most authentic RNG games in the world!

First Person American Roulette is a superior RNG-based game and a powerful cross-selling tool for introducing RNG players to Live Casino. It comes with the unique 'GO LIVE' button that takes players on a unique journey – through the in-game portal and directly to our live version of the game.
