Harvest Wilds

Game ID: 1140/1141/1142/1143

GAME DESCRIPTION

Harvest Wilds is a farm-produce themed 7x7 grid slot featuring a max win of up to 10,000x. Harvest Wilds has a Hoppers™ Sunflower multiplier symbol that can grow in value and is also Wild!

New Sunflowers can sprout from Seeds that drop onto the grid. You can get up to 4 wild multiplier symbols with a max value of 4x. Sunflowers are multiplicative, so connect them all to the same win cluster and your win will be multiplied by 256!

Create big clusters in combination with the Sunflower for great wins! Increase the multiplier values on Sunflowers by fertilizing them and collect respins by filling up the rainmeter!

FEATURES

WILD MULTIPLIER SUNFLOWER

When a Seed symbol lands on a winning grid it will grow into a Sunflower symbol (unless there are already 4 Sunflowers). This symbol is Wild and will get a starting multiplier value of 2x. Between each cascade and respin, this wild multiplier will hop to a new position. The maximum number of Sunflowers at the same time on the grid is 4, and the max multiplier value is 4x.

If a multiplier is part of a winning cluster, the multiplier will be multiplied by the win. If 2 or more multipliers are part of the same winning cluster, they will first be multiplied by each other and then applied to the win amount.

Each winning cluster will then be removed to make way for more symbols. Activated Water Drops and Fertilizer (including Epic variant) are removed together with winning clusters. This will continue until no new winning clusters are created.

WATER DROPS AWARD RESPINS

Each Water Drops symbol will give you one respin! Store up to a maximum of 5 respins in the rainmeter next to the grid.

FERTILIZER INCREASES MULTIPLIERS

The Fertilizer symbol increases the multiplier value on one of the Sunflowers by 1.

EPIC FERTILIZER

The Epic Fertilizer symbol increases the multiplier value on ALL Sunflowers on the grid by 1.

FEATURES continued

FEATURE SPINS

This game offers the new FEATURE SPINS functionality. This function is activated through the BUY BONUS menu, and once activated gives a guarantee of landing a certain number of Sunflowers per spin, with a fixed cost for each spin depending on the amount of Sunflowers selected.

It is possible to choose between two, three, or four Sunflowers per spin.

Feature Spins remain active until the DISABLE button is pressed to deactivate the feature.
