

# BLACKJACK 21+3

## About

An ever-popular classic card game, with one of the lowest house edges, Blackjack is an authentic gaming experience familiar to all casino players. The 21+3 Bet version of this table game has an RTP of 95.38%.

## THE STATS

RTP Blackjack: 99.43% 21+3 Bet: 95.38%

With five possible winning hands there are numerous combinations which can result in a bonus win, with payouts up to a massive 100-1 for a suited 3-of-a-kind.

The 21+3 bet allows the player to place a single wager on the outcome of their first two cards and the dealer's first card, using them to hopefully create a winning 3-card poker hand.

iSoftBet's latest version offers all the classic Blackjack action, where the player aims to beat the dealer hand without going over 21, and adds the lucrative 21+3 side bet.
