GAME OVERVIEW: RISE OF GIZA POWERNUDGE™

Nudge feature:

Nudge is a form of re-spin when certain reel moves by N positions, and certain symbols move out of the screen, and certain symbols move into the screen.

Player does not pay for nudge.

Win on any line will cause the related reels to nudge by 1 position down.

After the nudge, win lines are again detected and paid.

Nudge will continue as long as after the nudge there is a win on any line.

Nudge may happen both on base and free spins.

If there was scatter overlay on certain symbol, and that symbol nudged 1 position down, scatter is also moved 1 position down, but does not increase the scatter bar once again.

Free spins feature:

During the base and free spins the scatter bar is being accumulated, based on the amount of the new scatters that appeared on the screen.

Scatter bar is being reset after the free and base spin, and their related nudge re-spins have finished. 3 and more scatters inside the bar grant 8 free-spins, 4 grant 10, 5 – 12 and so on.

For example during the base spin 3 scatters appeared on the screen. Because there is a win on base spin, nudge re-spin is given to the player. During the re-spin 2 more scatters appear. There is no win on re-spin, so the round is finished, and 5 scatters grant 12 free spins. The same situation on the free-spin would grant the same extra amount of free spins.

After finishing of last free spin if the winning amount is less than 5x Total Bet then, Player will get a extra free spin and this will continue until player wins at least 5x Total bet.

GAME OVERVIEW: RISE OF GIZA POWERNUDGE™

Multiplier during free spins:

Free spins start with a multiplier 1.

After every free spin and any nudge re-spin on that free-spin, multiplier is increased by 1.

Any win during free-spin or nudge on re-spin is immediately multiplied by the current multiplier.

Free spins purchase:

Free Spins Purchase is the opportunity for user to start Free Spins manually

Game logic of bought Free Spin session is the same like for regular Free Spins session

User can buy Free Spins game before every base spin (not Free spin or Re-spin)

User pays extra credits for start. Bet is 800.

When user buys free spins, one regular spin runs first. 3 or more guaranteed scatters land on random positions on this spin. This scatters trigger Free spin session by regular way. If there was any win during the base spin, it would also trigger the nudge re-spin before the Free spin session is being activated.

Max win:

Max win for round is limited by 4000x total bet.
