#### About Red Tiger Jackpots

Like all Red Tiger slots, NFT MegaWays™ may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 94.72% RTP and adding a 1% jackpot contribution gives an overall RTP of 95.72%. The RTP of the jackpot contribution itself is 100%.

## CRYPTO PUNKS

The Crypto Punks are WILD symbols that may land only on the Crypto Punks Bar and substitute for all paying symbols. When a Crypto Punk lands on the Crypto Punks Bar and participates in a win with low-paying symbols, the Crypto Punk will collect them. This causes the Crypto Punk's multiplier to increase by 1x for each low-paying symbol collected. (e.g. a Crypto Punk participating in a win way with 4 low-paying symbols will increase its multiplier to 5x). This multiplier is applied to all wins in which the Crypto Punk participates for the duration of the current spin.

When a Crypto Punk participates in a win only with high-paying symbols, the Crypto Punk will be destroyed. The Multiplier of the Crypto Punks can increase up to 30x and up to 2 Crypto Punks can land in the same spin. If two Crypto Punks participate in the same winning way, their multipliers are multiplied by each other.
