Base Cost

When configuring a game, you can set a **Base Cost Multiplier**, which multiplies the Base Cost (minimum size bet) set by Playtech. This means that while the number of ways in this game can be 243, 1024, 3125 or 7776, the Base Cost to play is set to 10 by Playtech - you can then set a Base Cost Multiplier to set the stake levels for the game.

This is an innovative feature that allows Playtech to offer games that are more amenable to cheap Free Spins Bonus promotions, while still allowing Playtech games to deliver the full range of features and winlines.

For example, on this game the Free Spins Bonus can be promoted at a cost of 10p (Base Cost Multiplier 1), while still being able have the game available at a default cost of 20p (Base Cost multiplier 2) or even 40p (Base Cost multiplier 4).

There are no fractional betting and rounding concerns.

Examples are in the table below:

Base Cost Multiplier	Stake (GBP Example)
1	10p
2	20p
3	30p
4	40p
5	50p

In addition to the base cost, licensees should also set a maximum total bet. It is recommended this is set in relation to what the max win cap will be.

Examples are in the table below:

Win Cap	Recommended Max Total Bet
£ 100,000	£20.00
£ 200,000	£40.00
£ 250,000	£50.00
£ 500,000	£100.00
£ 750,000	£150.00
£ 1,000,000	£200.00
£ 1,500,000	£300.00
£ 2,000,000	£400.00
£ 2,500,000	£500.00

Age of the Gods™ Jackpot:

The Age of the Gods™ Jackpot is a multi-level mystery progressive jackpot that is linked to the Age of the Gods™ series of games.

A small percentage of each bet placed in any of the Age of the Gods™ games is added to the progressive jackpot. The percentage of all bets placed is split between four jackpot levels, which are displayed in the upper part of the game screen, above the reels.

Any level of the Age of the Gods™ Jackpot can be won through the jackpot game, which can be triggered randomly after any main game spin in any of the Age of the Gods™ series of games. It is not triggered by any symbol combination, and even a main game spin that does not result in a win can trigger the jackpot game. Triggering the jackpot game is possible at any bet size, but the chances increase or decrease proportionally with the size of the bet.

Entering the jackpot game guarantees a win of 1 of the 4 jackpots: Power Jackpot, Extra Power Jackpot, Super Power Jackpot and Ultimate Power Jackpot. The 4 different jackpot levels represent different prize amounts, with the Power Jackpot awarding the smallest prize and the Ultimate Power Jackpot awarding the highest. The jackpot game screen shows 20 face-down coins. Clicking on a coin will reveal 1 of 4 jackpot symbols. Each jackpot symbol corresponds to 1 of the 4 progressive jackpots. Once 3 matching symbols have been revealed, the corresponding jackpot level will be awarded. The jackpot winnings are added to the main game winnings from the triggering spin (if any) and are displayed in the Win field, together with any other winnings.

The Age of the Gods™ Jackpot game has a timeout timer. If a matching set of coins is not revealed by the player before the set amount of time elapses, coins will be revealed automatically and the corresponding jackpot will be awarded.

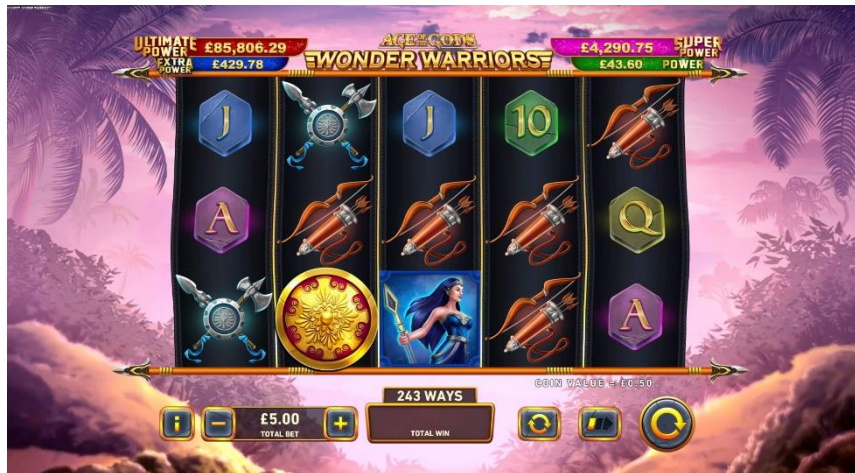

The Jackpot for this game works like this:

Seed (how much money the Jackpots start out with):	Power: €50 Extra Power: €500 Super Power: €5,000 Ultimate Power: €100,000
Contribution rate (what percentage of each bet goes into the Jackpot):	0.99%
Win condition (the result the player has to get to win the Jackpot):	Entering the jackpot game guarantees a win. Match 3 jackpot symbols of the corresponding jackpot or wait for the timer to run out.
Win requirements (what the player needs to do to be eligible for the Jackpot):	Play a game linked to the Age of the Gods™ Jackpot.
