## How to Calculate Payline Wins

To calculate your total win, calculate all payline wins and add them together.

To calculate a single payline win, count the number of identical symbols lined up in sequence on the line starting from the leftmost reel.

If two or more symbols are lined up find the value for that winning combination of symbols in the payable.

For all symbols for 2 in a row, 3 in a row, 4 in a row and five in a row. Only the highest winning combination per line is paid out.
