## Megadon

---

### WHAT'S THE STORY?

When you live in the ocean, it's every shark for themselves!

Sharing is certainly not caring. There may be plenty of fish in the sea, but the Leopard, Hammerhead and Great White Shark want the lion(fish)'s share.

And with other predators circling the great depths on the hunt for prey, will any of the sharks come out on top as the mightiest hunter of the sea?

### FEATURES

This game really has some bite!

Mega Don is all about symbol transformation and progression in the game. Land three Scatters to unlock Free Spins and symbol upgrades, the more Scatters that land on the reels the more Free Spins and upgrades.

Getting as many Scatters as possible during the Free Spins will unlock Retriggers which will keep adding to the player's symbol transformations which is important not only in terms of potential but in keeping players entertained and on the edge of their seats.

### MEET THE CHARACTERS

A shiver of sharks swarms the ocean in the hunt for the biggest fish.

Here you'll spot the aloof Leopard Shark, the headstrong Hammerhead Shark and of course, the Great White Shark.

But hidden in the deepest depths you'll find the ocean's other renowned hunters like the Barracuda and the Marlin.

Where there are predators there has to be prey. The Box Fish, Puffer Fish, Minnow, and Shrimp better have their wits about them!
