ABOUT DA VINCI GEMS

Da Vinci is back with High 5 Games Clusterbucks mechanic that will help players rack up riches again and again! Set in a truly renaissance ambience, Da Vinci will delight users once again!

Example of Desktop Base Game

Da Vinci Gems - Racking Up Riches comes with the Clusterbucks mechanic, where symbols pay out when 5 or more same symbols land adjacent to at least one another. Boosted by High 5 Games Racking Up Riches, every winning cluster is followed by a respin, where new symbols appear to replace non winning combinations. As long as new same symbols land adjacent to a winning cluster or new clusters are formed, respins continue.

But Da Vinci talents don't end up there! Enjoy extra chances to form/grow clusters thanks to 2 special symbols that transform non-winning adjacent symbols into winning ones, allowing for even more frequent winning clusters. Not lucky after 1 winning cluster? No worries, as the Magnet feature can attract same symbols in non adjacent positions into a cluster to force a win, and letting players continue the respins.

Play up to 20 free games with 5 scatters, and follow Da Vinci into his chamber of gems!

FEATURES

Clusterbucks & Racking Up Riches

Clusters of at least 5 symbols grant a payout and a respin where non-winning combinations disappear. New symbols fill the empty spots. New same symbols adjacent to a winning cluster increase the payout and grant another respin, until no further same symbols land adjacent to the cluster, or new clusters are formed.

Multiplier & transforming symbols

Diamond and Spiral symbols landing adjacent to a winning cluster, will transform into the winning cluster symbols. Spiral symbols appear with a multiplier of 2x, 3x, 5x, 7x or 10x, that will apply to the whole winning cluster!

Magnet feature

When 1 winning cluster is formed, and there is no further win after the respin, there's a chance that the Magnet feature is activated, attracting same winning cluster symbols that are dispersed, into adjacent positions of the winning cluster. This allows for another respin and more winning combinations.

BONUS

Play 5, 10 or 20 free games when you collect 3, 4 or 5 (or more) diamond symbols within the same spin or consecutive respins. Diamond symbols that are adjacent to a winning cluster will not only be transformed into winning cluster symbols, but are also collected towards the Bonus activation. At the start of each free game spin, a winning cluster of 5, 6 or 9 symbols is placed on the reels, granting a payout and a respin on each and every of the 5, 10 or 20 spins!
