## SCATTER

4 or more Scatters anywhere on the reels trigger the Free Games feature.

The Scatter symbol appears anywhere on the reels.

During the Free Games feature 3 or more Scatters awards extra free games.

## BANANA SYMBOLS

Banana symbols can land anywhere in base game and in Free Games feature.

Land one or more banana symbol on the reels to be awarded one or more monkey bonuses.

### **GOLD COINS**

Gold Coins can appear in both the base game and the Free Games feature during an animal cluster win.

Gold Coins have a random multiplier value between x2 and x500.

The multiplier will be applied to the entire win of cascades (if any).

### WILD

Wild symbols can appear anywhere on the grid during the base game and Free Games feature but **ONLY** when Monkey Bonus 1 has been awarded.

Wild symbols substitute for all symbols except for the Scatter, the Banana and the Gold Coin.

## CASCADING SYMBOLS

Winning clusters of 5 or more symbols will disappear and the remaining symbols above will drop into any empty spaces below them in the grid.

Any empty positions at the top of the grid are filled with symbols coming from above.

Cascades will continue until no more winning clusters form.

All wins are accumulated and added to the players balance once the cascading finishes.

## MONKEY BONUSES

Monkey Bonuses are randomly awarded when a banana symbol lands on the grid.

### Monkey Bonus 1

Between 5 and 10 Wilds will randomly appear on the grid.

### Monkey Bonus 2

All low paying symbols in view will be removed leaving only high symbols.

### Monkey Bonus 3

A colossal 3x3 symbol will appear on the grid.

### Monkey Bonus 4

1, 2 or 3 Scatter symbols will appear randomly on the grid.

If 2 or more banana symbols land on the grid, the amount of monkey bonuses awarded matches the number of banana symbols.

If more than one monkey bonus is awarded, the bonuses are played out in numerical order.

## MULTIPLIERS

During any animal cluster win there is a chance that a Gold Coin will be left in one of the empty spaces.

Gold Coins have a random multiplier value between x2 and x500.

The multiplier will be applied to the entire win of cascades (if any).

More than one Gold Coin can be left by any winning cluster of animal symbols. When there is more than one Gold Coin the values are added together and then multiply to all winning cascades.

## FREE GAMES FEATURE

4 or more scatter symbols anywhere on the reels trigger the Free Games feature.

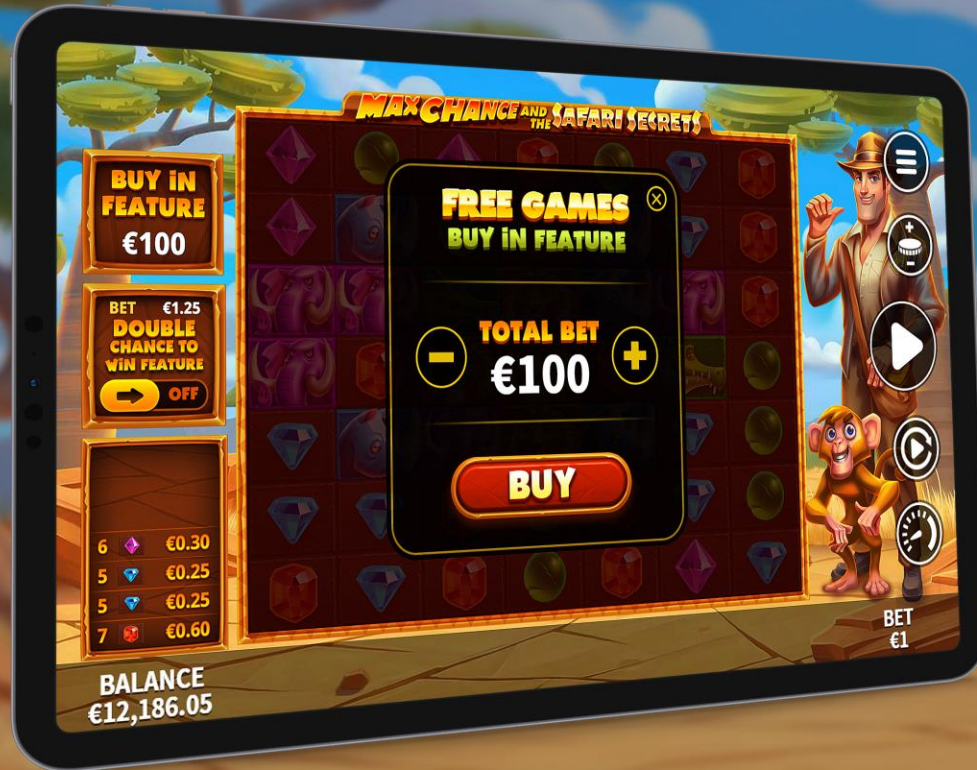

- 4 Scatter symbols award 15 free games
- 5 Scatter symbols award 20 free games
- 6 Scatter symbols award 25 free games
- 7 Scatter symbols award 30 free games

During the Free Games feature if a winning cluster of animal symbols includes a multiplier, the value of that multiplier is added to any progressive multiplier Max Chance is holding, then the win is multiplied by the total value displayed.

The progressive multiplier stays at that value until there is another animal win with a Gold Coin or the feature ends.

If 3 or more Scatter symbols land during the Free Games feature extra free games are awarded.

## BUY IN FEATURE

The Buy In feature allows the player to purchase the Free Games feature directly.

Clicking on the BUY IN FEATURE button opens a feature menu, where the amount to purchase is displayed calculated on the bet amount.

The player can change the bet and see how the cost of the Buy In feature altered immediately.

Press the BUY button to pay for the feature and trigger the Free Games feature.

After purchasing, all wins will be calculated the same as during regular games.

The Buy In feature can be activated only between games and during the base game.

## DOUBLE CHANCE FEATURE

The Double Chance feature doubles the chances of triggering the Free Games feature for an additional cost.

The cost of the Double Chance feature is displayed, a total of 25% above the player's current bet. E.g. If the bet is 20 coins, Double Chance is 25 coins.

It is only available during the base game. Double Chance cannot be turned on/off during games.

The feature is turned off as a default.

Skywind will upload the game with the default Coin Bet values shown here (the coin marked in **bold** and **yellow** is the default selected coin bet for all players as they enter the game for the very first time).

Please contact the Skywind support team if you want to make changes in the Coin values.

Game limits of all new games must ALWAYS be reviewed by the casino operator prior to the game's release to players. Failure to set the required maximum limit may result in the casino's exposure to large player wins.

As always, licensees are welcome to contact their Partner Manager for further assistance in understanding and configuring game limits and updates of coin values.
