### HOW TO PLAY

The objective of the Gold Bar Roulette is to predict the number on which the ball will land by placing one or more bets that cover that particular number. The wheel includes the numbers 1-36 plus a single zero.

You can place many different kinds of bets on the Roulette table. Bets can cover a single number or a certain range of number, each type of bet has its own payout rate.

#### GOLD BARS

To participate in the game, you need to place a chip or a Gold Bar on the betting grid.

Gold Bars cannot be purchased; you have to win them. A random number of Gold Bars can be won when winning on a Straight Up bet.

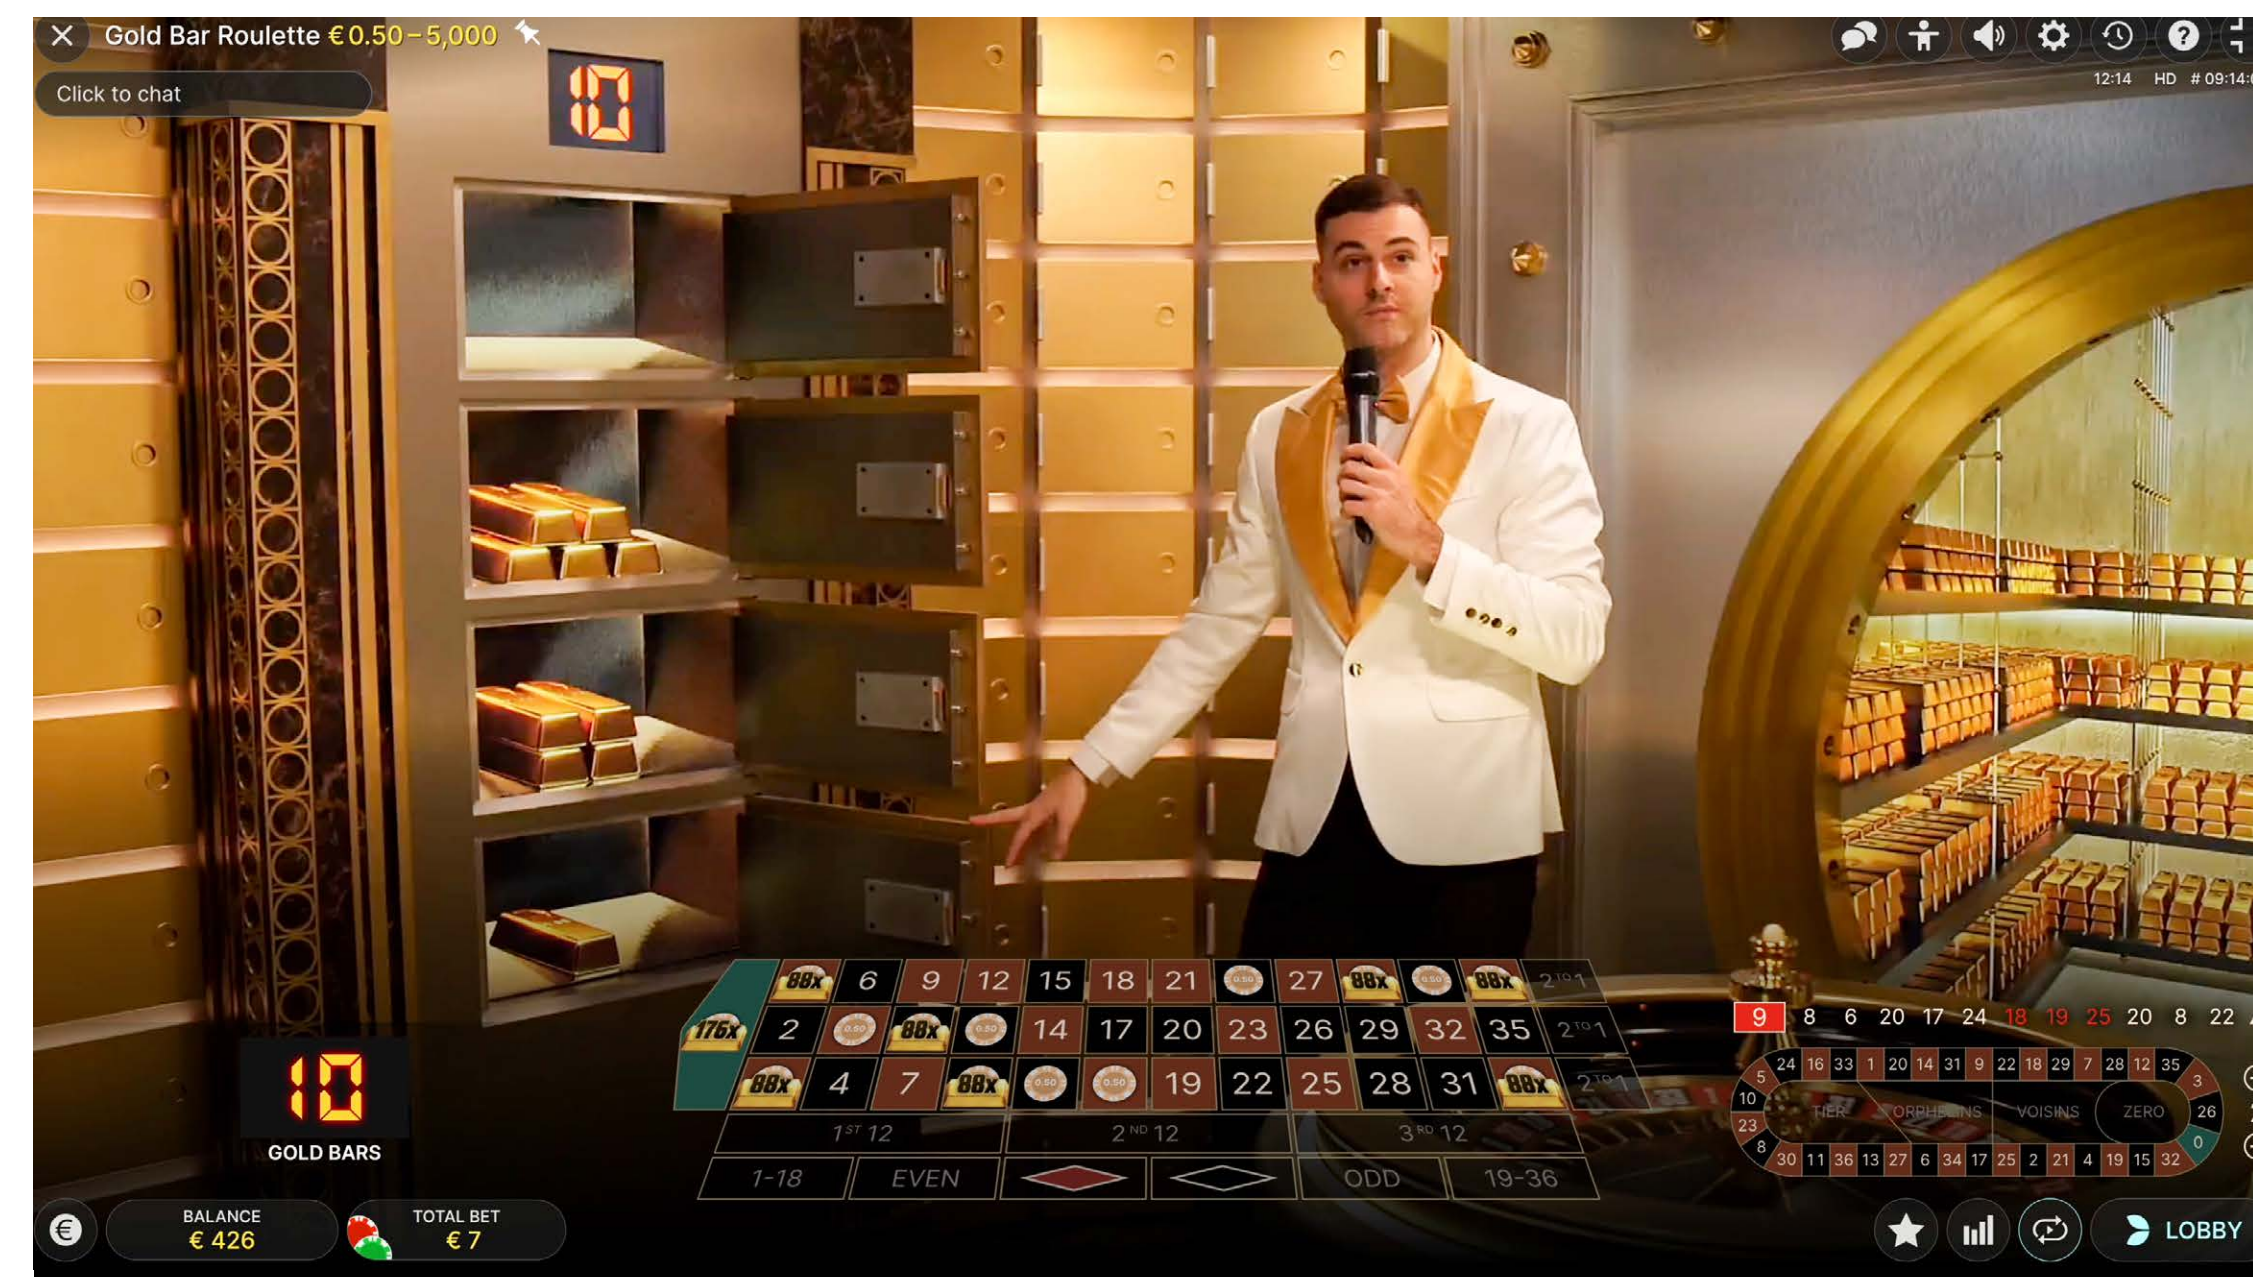

Once available, Gold Bars can only be placed on a Straight Up bet spot. By placing a single Gold Bar, you bet an 88x multiplier that is linked to the current Gold Bar value displayed in the Gold Bar balance.

You can stack multiple Gold Bars on a single Straight Up bet spot to increase your Gold Bar's multiplier value.

#### OPENING OF THE SAFE

After betting time has expired, the dealer spins the ball within the Roulette wheel and opens a safe with four boxes to reveal one to twenty Gold Bars.

The number of revealed Gold Bars indicate the amount of Gold Bars that potentially can be won in that game round.

### THE RESULT

The ball will eventually come to rest in one of the numbered pockets in the wheel. Once the ball comes to rest, the number of Gold Bars won for this number is revealed.

You win if you have placed a bet that covers the winning number.

- If you have placed a chip on a winning Straight Up bet spot, you will be paid 19:1 and the won Gold Bars will automatically be added to your Gold Bar balance.
- If you have placed a Gold Bar on a winning Straight Up bet spot, you will be paid cash payout (Gold Bar multiplier x Gold Bar value), and the won Gold Bars will automatically be added to your Gold Bar balance.
- If you have placed a chip and Gold Bar bet on a winning Straight Up bet spot, you will be paid 19:1 and a cash payout (Gold Bar multiplier x Gold Bar value), and the won Gold Bars will automatically be added to your Gold Bar balance.

The won Gold Bars can be used in any future game round. You decide when and where to gamble the Gold Bars for multiplied payouts!

Autoplay is available if you wish to automatically play the same bets for selected number of game rounds.
