Wild Falls 2

Wild Falls 2 is a 5-reel video slot game with 20 paylines by default. The number of paylines can increase up to 40 depending on the reel size.

The RAPID RE-SPINS feature is triggered by having 1 or 2 Chests on the reels. All Chests are WILDS and SCATTERS. The Chests are held in place during RE-SPINS. Chest landing on the reels extends all the reel height by 1, maximum up to 2 times. RE-SPINS will continue with new Chests added. If 3 Chests are on the reels, the RIVER OF GOLD FREE SPINS feature will be awarded. If 3 Gold Chests are on the reels, the SUPER RIVER OF GOLD FREE SPINS feature will be awarded.

GOLD RUSH is a random feature where all Chests change into Gold Chests. Each Gold Chest contains a MULTIPLIER of either X2, X3, X4, or X5. RAPID RE-SPINS can be triggered using Gold Chests. If there are 3 Gold Chests on the reels, the SUPER RIVER OF GOLD FREE SPINS will be awarded.

RIVER OF GOLD FREE SPINS is a feature triggered by having 3 Chests on the reels. Chests can only appear on reels 2, 3, and 4. The Chests will stick and then move one position down on the reels at the end of every free spin until they fall off the bottom of the reels. During the RIVER OF GOLD FREE SPINS, new Chests can be added. Gold Chests containing MULTIPLIERS can appear on any spin. Each Gold Chest contains a MULTIPLIER of either X2, X3, X4, or X5. The MULTIPLIERS in Gold Chests do not increase during the RIVER OF GOLD FREE SPINS. FREE SPINS will continue for as long as Chests are on the reels. The number of obtainable FREE SPINS is UNLIMITED!

SUPER RIVER OF GOLD FREE SPINS is a feature triggered during GOLD RUSH. It works the same as RIVER OF GOLD FREE SPINS, except it is triggered by 3 Gold Chests and all Chests remain GOLD for the duration of the FREE SPINS. Also, on every move one position down on the reels of the Gold Chests, the MULTIPLIER increases by 1 and up to X9. FREE SPINS will continue for as long as Gold Chests are on the reels. The number of obtainable FREE SPINS is UNLIMITED!

Casino Standard Rules and Settings

WIN CALCULATION AND BETS:

1) Maximum wins are inclusive of the origin bet and based on the default bets for games
2) Underlined and bold values are default settings
3) Default settings can be changed by the operator
4) If the default settings/bets are altered, the maximum wins will be altered as well

CURRENCY:

1) All currency values relate to a currency multiplier of 1 which is accurate for EUR, USD, and GBP.
2) Other currencies, another multiplier might be used. For example: SEK has currency multiplier 10. All values related to currency should thus be multiplied by 10 for SEK. I.e. 10€ = $10 = £10 = SEK100.
3) All currency is marked with an asterisk (*) next to the caption in all tables.
