Count Jokula

Count Jokula is a 3-reel video slot with 5 paylines.

The Joker symbol is Wild and can substitute for any symbols to form a winning combination.

On any non-winning spin, if the Bat symbol lands on the reels, it will transform into the Joker Wild if that will create a winning combination.

Wins formed with the Joker Wild symbol on the middle reel will trigger a free Respin and unlock the multiplier. Each additional time this happens consecutively it will trigger another Respin and increase the multiplier.

Each win during the Respins sequence is multiplied by the current unlocked multiplier value. The maximum multiplier value is x20 and when this value is unlocked the multiplier value will no longer increase but it will be applied to all future wins during the Respins sequence. The multiplier is reset and locked once the Respins sequence ends.

Joker Wilds that land on the middle reel and form part of a winning combination are sticky for duration of the Respins sequence even if they don't form part of any further wins.

The maximum Respin number is 25, if that number is reached the Respin sequence will end automatically.

LP1	1

Casino Standard Rules and Settings

WIN CALCULATION AND BETS:

- 1) Maximum wins are inclusive of the origin bet and based on the default bets for games
- 2) Underlined and bold values are default settings
- 3) Default settings can be changed by the operator
- 4) If the default settings/bets are altered, the maximum wins will be altered as well

CURRENCY:

- 1) All currency values relate to a currency multiplier of 1 which is accurate for EUR, USD, and GBP.
- 2) Other currencies, another multiplier might be used. For example: SEK has currency multiplier 10. All values related to currency should thus be multiplied by 10 for SEK. I.e. 10€ = \$10 = £10 = SEK100.
- 3) All currency is marked with an asterisk (*) next to the caption in all tables.
