GAMEINFO

Game Name : Gems Galore
Game Id   :   GemsGalore
Relase Date : 29th April 2022

Gems Galore an interesting 7*7 cluster eval and cascading game. This is a game of chance, with dynamic odds, where the player can bet a certain amount of money or credits to try to get combinations of symbols that grant payments. The game presents a number of reels or columns, each with a set of symbols that, on each play, stop at a random position, defining which symbols are visible on the screen. Each game has different symbols, both in quantity and appearance, according to its theme and design.

Game Features:

Base Game: -

Clusters eval and cascading.

- Wild feature will be triggered randomly in no win condition.
- Wild feature:
- 2x2 size wild(Dynamite) will randomly placed on the screen. After that evil will start,and the cascading will continue until the wins are there on the screen.

MINING FEATURE :

3 or more Bonus symbols trigger the Mining Feature.

Mining Feature has a maximum of Five Levels.

In each level of the Mining Feature, the player will get an option of 5 stones to choose any 1 among all.

The chosen stone reveals either the Credit Awards or Multipliers.

Feature ends when chosen stone reveals the Multiplier.

The Player can be awarded from 4x to 470x in the Mining Feature.
