## FEATURES

### RE-SPIN

Re-spins are awarded when symbols match across the 3 reels.

When this happens, reels move to the left, the matched symbol from reel 1 is collected and the rightmost reel re-spins.

Re-spins continue as long as new matching symbols continue to land during the re-spins.

Multiplier symbols are present during the re-spins, collecting one will double, triple or quadruple the symbols collected up until that moment.

Apart from multiplier symbols there exists an Extra Row symbol, which adds an extra row to the grid once collected. At most two Extra Row symbols can be awarded.

## FEATURES

### BONUS ROUND

Collecting 3 or more BONUS symbols will trigger the feature. Once the feature starts, a number of "coin symbols" equal to the number of collected bonus symbols will spin in, revealing a value as a multiplication of bet and award 3 re-spins.

When symbols are present on all 3 reels, the reels move to the left, symbols present on reel 1 are collected and their values applied to the total win, the re-spin count is reset to 3, and the rightmost reel re-spins.

The Bonus round features different symbol behaviours that can also interact together:

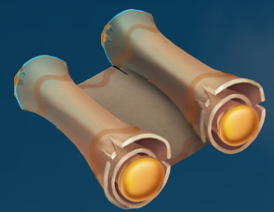

Normal Coin - Reveals a value between 1x and 10x bet.

Super Coin - Reveals a value between 20x and 100x bet.

Reset +1 - Increases the re-spin counter reset value by one.

Extra row - Adds an extra row to the grid. At most two extra rows can be awarded.

**Special Symbols will act each time they land or move left.**

**Collector** - Collects all other coin values on the reels.

**Payer** - Increase the coin value up to 3 positions on the reels with the value it carries.

**Sniper** - Multiplies up to 3 positions on the grid that carry a coin value, with X2, X3 or X4.

**Persistent Symbols will begin to act once they have been collected and will perform their action before each re-spin.**

**Persistent Collector** - Collects all visible coin values on the reels.

**Persistent Payer** - Increase the coin value of up to 3 positions on the reels.

**Persistent Sniper** - Multiplies up to 3 positions on the grid that carry a coin value with X2, X3 or X4.

The Bonus Round comes to an end when the re-spin counter reaches 0.
