These farmyard animals aren't as innocent as they may seem. Here to cause mischief on the grid, especially that wily rabbit!

Where's the farmer when you need him?

FEATURES

This fun farm-themed grid slot is perfect for enthusiasts and newcomers to grid slots. Features tie closely with the narrative and the goals are clear to follow as the symbols cascade. Spin. Match. Clear.

The Sunflower serves as a Charge Metre, with Wins petals will become highlighted and grow, each quarter of the Sunflower achieved will award a new Wilds on the grid starting with a Chicken, then a Goat, then a Sheep and finally the Cow.

The Rabbit acts as a destruction feature in the base game, on random non-winning spins either a row, column or low-paying symbols will be removed from the grid... Depending how the rabbit is feeling.

IN-GAME ARTWORK

Bright, bold and in a humorous style the in-game artwork for Animal Madness is in a word - fun! (Much like the game itself)

Symbols show the vegetables grow as they go from green to showing their beautiful colours when fully ripe. This attention to detail not only spurs the narrative but gives players clear goals. Tasty!
