Base Cost

When configuring a game, you can set a **Base Cost Multiplier**, which multiplies the Base Cost (minimum size bet) set by Playtech. This means that while the number of lines in this game is 25 lines, the Base Cost to play is set to 5 by Playtech - you can then set a Base Cost Multiplier to set the stake levels for the game.

This is an innovative feature that allows Playtech to offer games that are more amenable to cheap Free Spins Bonus promotions, while still allowing Playtech games to deliver the full range of features and winlines.

For example, on this game the Free Spins Bonus can be promoted at a cost of 5p (Base Cost Multiplier 1), while still being able have the game available at a default cost of 10p (Base Cost multiplier 2) or even 20p (Base Cost multiplier 4).

There are no fractional betting and rounding concerns.
