

Red Tiger presents: Hustling

Big wins are in the house and it's time to pick your side! In this new game from Red Tiger, players get to pick who will lead them to rap house clout - the East Wild or the West Wild. These Super Wild symbols are the highlight of the game, leading players to exciting wins and Free Spins. When both Super Wilds land on the reels together they trigger 10 Free Spins and players have the chance to choose who will take them the rest of the way. Both of these Wilds will have an initial multiplier of x1, but if a Super Wild symbol is part of a win during Free Spins, its multiplier increases. If you want the chance to win big both ways, this is the game for you! So, dust off that microphone and take your musical skills for a spin with Hustling - let the battle begin!

About Red Tiger Jackpots

Like all Red Tiger slots, Hustling may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 94.72% RTP and adding a 1% jackpot contribution gives an overall RTP of 95.72%. The RTP of the jackpot contribution itself is 100%.

FEATURES IN THE GAME

SUPER WILD SYMBOLS

The battle begins! When a Super Wild lands it locks for one spin. Players have two dynamic Wilds to discover as the reels spin - the West Wild 1x3 Super Symbol sits on the leftmost reels, and the East Wild appears directly opposite. Landing both these Super Wilds together triggers the 10 Free Spins feature, where these Super Wilds are locked for the full round.

FREE SPINS

It's time to pick your side! Keep your eyes peeled, because when both Super Wilds land on the reels together they trigger 10 Free Spins and players have the chance to choose who will take them the rest of the way. East or West? It's up to you. Both of these Wilds will remain locked for the duration of the round and will have an initial multiplier of x1, but if a Super Wild symbol is part of a win during Free Spins, its multiplier increases. But that's not all - players can benefit from 10 Bonus Spins if the Super Wild chosen by players has a higher multiplier at the end of the round. If both Super Wild symbols have the same multiplier at the end of the initial 10 Free Spins, one Extra Spin will be triggered until one has a higher multiplier than the other. If both Wilds participate in a win line the multipliers are multiplied by each other before being applied. The multipliers then reset at the end of Free Spins.
