## WHAT'S THE STORY?

It's the 1700s.

A leader of the infamous tribe was known for his fortune, and he was not willing to part with it, even in death. To avoid sticky fingers, he demanded to be buried in secret.

200 years later and rumours of his burial chamber swirl amongst the locals, but are rumours just rumours, right?

With the help of a little magic, can you navigate the vast rainforests and locate his ancient burial place?

## IN-GAME ARTWORK

This vibrant game is set in a rainforest style setting, the glow effect that you can see in the low paying symbols makes them pop on the grid. Colours leap and faces emote as masks represent high paying symbols, making them easily recognisable to the player.

With a volcanic backdrop and jungle setting, we can feel things heating up!

## FEATURES

Rotiki is a beautiful game that puts a new spin on what you would expect to see from a grid slot.

Rather than cascading, the symbols move from left to right with each 'block' rotating which is an innovative effect to watch during gameplay.

The aim of the game is to match five or more symbols to create a winning cluster. The first cluster will trigger three Re-Spins, the following Re-Spins work by filling the grid row by row with matching symbols to create a bigger cluster.

The ultimate goal is to clear the grid of all symbols.

Filling the grid with clusters takes you through to the Bonus Feature, the 'Treasure Room'. An interactive pick-and-click game takes place, where the player has the opportunity to boost their Multiplier value by unveiling hidden symbols.

There is the opportunity to win up to x1000 your bet!
