GAME DESCRIPTION

It's Time To Double Up!

Dublin Up is an Irish-themed video slot game set in an enchanted forest with colourful blooming flowers. The game features inviting graphics and is centered around Scarlett O' Sparklewish, a fairy. The combination of free spins and Yggdrasil's Doublemax GEM makes for an exciting slot game.

The game sparkles with potential, with its 'pop and drop' mechanic creating cascades of wins, and a multiplier doubling with every drop. During Free Spins, the win multiplier persists between winning sequences, giving players more excitement.

With the game riding the crest of the current wave of high volatility games, it will be appealing to core players seeking big returns. The Irish fairy forest slot theme has also proven popular with players everywhere.

GAME FEATURES

POP AND DROP CASCADE FEATURE

Any win will initiate a “Pop and Drop” cascade. All symbols involved in a win are removed from the reels. One or more Wild symbols are placed in the gaps produced and any remaining gaps are filled by symbols dropping from above.

For every cascade, a multiplier doubles in value. This starts at x1 for the initial win and is applied to the current win created by the symbols in view on the reels. Subsequent wins will have a multiplier of x2, x4, x8, x16 etc. There is no limit to the multiplier.

GAME FEATURES

FREE SPINS GAMBLE

The Free Spins Gamble is triggered by 3 or 4 Bonus Scatter symbols landing in view, or cascading into view, during the base game. The player is offered the choice of collecting their current Free Spins or gambling for more in an “all or nothing” gamble.

Choosing to gamble results in a pointer spinning. It can end up pointing to either green or red. Green is a win and steps the player up to the next level of Free Spins. Red is a lose and ends the game round with no Free Spins.

GAME FEATURES

FREE SPINS

The Free Spins bonus is triggered by collecting in the Free Spins Gamble or directly when 5 Bonus Scatter symbols land or cascade into view, during the base game.

Wins and Cascades proceed in the same way as in the base game. The Multiplier, however, does not reset during Free Spins but builds through the feature with each win and cascade.

GAME RULES

Welcome to Dublin Up Doublemax Video Slot featuring cascading reels, a Reel Bonus and a Free Spins feature.

ABOUT THE GAME

Dublin Up is a Video Slot with 5 reels and three rows incorporating 25 paylines. When 3 or more identical symbols land on a payline starting from the leftmost reel this will pay. The game features 4 regular high paying symbols, represented by familiar Irish icons and 4 low paying symbols represented by royal card symbols. There is a Wild symbol which appears during the cascade in both the base game and Free Spins which substitutes for all regular symbols. There is also a Bonus symbol that awards Free Spins when 3 or more appear in view in the base game only.

Faery Magic

The Faery Magic reel bonus is triggered randomly following a reel spin in the main game. The faery animates and casts spells to eliminate symbols on the reels. This initiates a cascade that will result in a win.

GAME RULES

Pop and Drop Cascade feature

Dublin Up features Cascading wins. Winning symbols are removed from the reels with the gaps created being filled by new symbols from above. During each cascade, one or more Wild symbols is added to the vacated positions before the symbols above drop.

Multipliers

For each cascade, a total multiplier is doubled. The multiplier resets to x1 after any losing spin or cascade in the basic game.

During Free Spins the multiplier does not reset until the end of the Free Spins feature.

Lucky Bet

There is the option for a player to increase their bet by 25% to double their chance of achieving Free Spins.

Bonus Buy

By selecting the Bonus Buy button, the player can pay x100 to buy into 7 Free Spins with their choice of bet size.

GAME RULES

FREE SPINS

When 3 Bonus symbols land in view in the basic game, 7 Free Spins are awarded. 4 Bonus symbols landing in view award 10 Free Spins. Getting 5 Bonus symbols in view awards 13 Free Spins. The Multiplier continues to build during the Free Spins Bonus and does not reset until all the Free Spins have been used up. Free Spins are played with the same bet as the activating spin. It is not possible to retrigger Free Spins.

Free Spins Gamble

The Free Spins Gamble is triggered by 3 or 4 Bonus Scatter symbols landing in view, or cascading into view, during the base game. The player is offered the choice of collecting their current Free Spins or gambling for more in an “all or nothing” gamble. Choosing to gamble results in a pointer spinning. It can end up pointing to either green or red. Green is a win and steps the player up to the next level of Free Spins. Red is a lose and ends the game round with no Free Spins.

GAME RULES

A maximum of 2 gambles can be made when starting with 3 scatter symbols in view. A maximum of 1 gamble is allowed when starting with 4 scatter symbols in view. The gamble ends when the top level is reached, the player collects or a lose results.

HOW TO PLAY

Press the Spin button to start the game.

HOW TO CALCULATE PAYLINE WINS

To calculate your total payline win, calculate all payline wins and add them together.

To calculate a single payline win, count the number of identical symbols lined up in sequence on the line.

If three or more identical symbols are lined up, find the win value in the dynamic Pay Table. There you can find the value for all symbols for 3 in a row, 4 in a row, and 5 in a row. Only the highest winning combination per line is paid out.

If the winning combination starts with three wilds, there can be many ways to interpret the win. In this scenario, only the highest win combination is paid out.

GAME RULES

The above doesn't include the Bonus symbols which do not need to be on a payline to award a prize.

After the Bonus round is completed, all wins are added to any win from the game that activated the Bonus.

There can be a discrepancy between sum of the individual wins in collection Free Spins from what is displayed in the total win end screen. The total win end screen displays the final rounded win.

BOOSTS

Please note that symbols in the Free Spins bonus games ARE NOT added to the total collected symbols in the top bar.

RANDOMIZATION

The reels are spun with a fair and equal chance for each stop position by a certified random number generator.
