FEATURES

Are you ready for *Pop*?

Set in a cool 2,3,4,3,2 grid layout in the base game, this slot cleverly combines nostalgic aesthetics with contemporary features.

The action takes place in the Free Spins feature with the objective of expanding the reels, which only happens in the Encore Spin feature. Pop Symbols appear on the top and the bottom of the reels, with every 'Pop' a Mystery symbol is revealed. The aim is to clear the grid in the Free Spins feature of all the Pop symbols to take the player to the Encore Spin feature.

Members of the band appear on the reels and are united as they act as the Wild symbol which fans of the band will be pleased to see.

IN-GAME ARTWORK

The game designers have hit all the right notes when it comes to the visuals in this musical title.

The bonus feature backdrop is inspired by the stage in the iconic music video *Pop* and the boys show us their moves on the reels.
