#### FREE SPINS

Available on reels 1, 3 and 5.

When the symbol appears on all 3 reels, regardless of the position, then 15 Free Spins with no low value symbols are awarded. All Free Spins are played at the same stake they were awarded.

During the Free Spins, high value symbols and Wilds are stacked in stacks of three and all low value reel symbols are removed.

#### WILD SYMBOL

Appears stacked on reels 2, 3, and 4.

The Wild symbol substitutes for all symbols except for the Scatter symbol.

#### WINS

A win is awarded if three or more identical symbols line up left to right on an active pay-line, beginning from the leftmost reel. If multiple combinations on the same winning line occur, only the highest will be paid. Simultaneous wins on different bet lines are possible and accumulated.

Winning combinations and pay-outs are made according to the PAYTABLE. A successful win line multiplies the line bet by the corresponding payable multiplier.

#### PAYTABLE

Any winning combinations and pay-outs are made according to the PAYTABLE. Use this table to find out the payout

#### HOW TO CALCULATE WINS

The PAYTABLE shows the value for 3, 4, or 5 identical symbols lined up in a row. Only the highest winning combination per line is paid out from left to right.

To calculate a single bet line win, count the number of identical symbols lined up in sequence on the line from left to right.

The total win will be the sum of all wins added together.
