

Celebrate the Chinese Year of the Tiger with Fortune Tiger HyperWAYS™ as the golden tiger (Scatter) brings you good luck and guides you throughout your Free Spins Bonus Game.

Fortune Tiger HyperWAYS™ is a high-volatility, cascading 5x4-reel slot game that offers players the chance to win up to 15,000x their bet, and up to 60,466,176 ways to win via the HyperWAYS™ mechanic. Each spin awards a different-ways-to-win combination depending on the total symbol multipliers (up to x9) that land on each symbol. Wins are attained by landing identical symbols on three or more consecutive reels, counted from left to right, and landing multiple symbols on that reel multiplies that win. Simultaneous wins on different win-ways are summed up.

During the base game, the WILD symbol substitutes for all symbols except scatters and landing five Scatters triggers EIGHT FREE SPINS. A TIGER'S BOOST FEATURE appears randomly in the base game and each one will display a random symbol multiplier corresponding to each of the reels left to right. During FREE SPINS, a Tiger's Boost feature is present on every spin. Landing Scatters increases the Tiger's Boost by +1 up to 5 during each spin. The TIGER'S PAW will give you an added push when you land four Scatters that will award a respin of the remaining reel to award the missing Scatter.

Last but not least, Fortune Tiger HyperWAYS™ offers you a BUY BONUS that you can use to buy free spins.

The Silver Tiger (Wild) is hiding but ready to appear and bring you good fortune and great wins.
