About Red Tiger Jackpots

Like all Red Tiger slots, Get The Gold Infinireels™ may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 94.72% RTP and adding a 1% jackpot contribution gives an overall RTP of 95.72%. The RTP of the jackpot contribution itself is 100%.

FEATURES IN THE GAME

Infinireels™

It's time to play! The size of the slot will begin as a 3x3 reel set. Upon entering a Gold Rush the current reels will lock and one additional reel will be added to the right side of the reels on the next spin. If the Gold Rush continues after a spin, that reel will also lock into place. If Gold Rush ends, all added reels will be removed and the reels will revert back to a 3x3 layout.

FEATURES IN THE GAME

GOLD CARTS

Gold Cart Scatters are your key to wealth and riches! These Scatters can land on all three reels, with up to 3 on a single reel. They contain an amount that only pays during the Gold Rush feature. The sum in each Gold Cart depends on its size and is based on the stake multiplier. The small ones can contain between 2x and 5x the stake, the middle ones between 7x and 10x the stake and the biggest ones between 14x and 20x, or exactly 50x the stake.

FEATURES IN THE GAME

GOLD RUSH

Experience the rush and spin! Landing at least one Gold Cart Scatter on each reel activates the Gold Rush feature. Each spin adds a reel and can award different types of Scatters: Gold Carts that hold values of 2x to 50x, the Double Scatter which doubles the winnings collected so far, and the Triple Scatter which triples it. A player's prize is gathered from all the Scatters won, calculated, and paid out when the Gold Rush feature concludes. A couple of things to bear in mind - if a Scatter prize exceeds the maximum total, only the sum that reaches the maximum will be collected, and every spin during the Gold Rush costs the stake used to enter the feature. The feature finally ends if a Scatter doesn't land for 4 consecutive spins or if a sum of the maximum total of 10,000x the stake is reached.
